

WOMEN'S MEDICAL FUND

Who we are:

Women's Medical Fund provides financial and other assistance to low-income adults and teens who wish to terminate a pregnancy but lack the funds for a safe legal abortion.

Who we serve:

If you live in Southeastern Pennsylvania (Philadelphia, Montgomery, Chester, Delaware, or Bucks counties) or if you live elsewhere but are going to Southeastern Pennsylvania for an abortion and you need help paying for it, WMF may be able to help you. If you live in other areas of Pennsylvania, we can occasionally provide assistance.

Working with WMF:

Step 1. Make an appointment with an abortion provider even if you do not have the money to pay for the abortion. The abortion provider may also have other funding resources available in addition to our funding.

Step 2. Call our **Help Line at 215-564-6622** to talk to our phone counselor about financial assistance. When you call, we will need to know: where you are having the abortion; the date of the abortion; and the cost of the abortion. Our Help Line is staffed Monday to Friday.
