

Children’s Crisis Response Center & Children’s Crisis Resources

Our top priority is to ensure that all children throughout the City of Philadelphia have access to behavioral health services and resources during a crisis.

The Philadelphia Children’s Crisis System is designed to:

- Prevent crisis whenever possible.
- Ensure interventions provide rapid relief and a sense of control to the child and family.
- Provide services in a family-focused, strength-based, trauma-informed manner.

The following options are available to help a child and family access the support they need during a behavioral health crisis:

Is the child already connected to behavioral health services?	Does the child require an urgent, same-day behavioral health evaluation?	Does the family require assistance or guidance regarding a child’s behaviors or emotions?	Is the child experiencing emotions or behaviors that may cause a life-threatening injury to him/herself or others?
